Introduction

Dear Colleagues and Friends,

We are pleased to invite you to the 48th TVL Congress, that will take place in Verona on 28th November 2024.

TVL (Società Chirurgica Tirolo-Veneto-Lombarda) was born more than 50 years ago from the friendship between Italian and Austrian Surgical Schools with the main mission to share research and clinical experience.

The theme of the meeting will be “Surgical Approaches to the Localised and Metastatic Colo-rectal Cancer”.

In the last decade, several new technologies have been introduced to modify, improve and expand the curative options for Colo-Rectal cancer patients. Different Surgical Techniques for the treatment of local colorectal disease and distant metastases, will be presented during the meeting. Different disease stages and clinical scenarios will be discussed, exploring the most up-to-date treatments and the impact of the New Technologies.

The congress venue will be the University of Verona, Santa Marta Building (Silos di Ponente), located in a recently renovated 19th Century Austrian military architecture. We look forward to welcoming you to this exciting meeting.

-Andrea Ruzzenente
